

About the National Institute of Urban Affairs (NIUA)

Established in 1976, NIUA, is a premier Institute of the Ministry of Housing and Urban Affairs, Government of India for research and capacity building for urban sector in India. NIUA's broad objective is to bridge the gap between research and practice on issues related to urbanization. For more than 40 years now, NIUA has been the vanguard for contributing to and building the urban narrative for a fast-evolving Urban India. The Institution has been actively working on bringing forth key areas of concern for urban India in order to build the urban discourse at various urban scales. It has utilized its competencies in research, knowledge management, policy advocacy and capacity building to address urban challenges and continuously striving to develop sustainable, inclusive, and productive urban ecosystems in the country. It has emerged as a thought leader and knowledge hub for urban development in India and is sought out by both Indian and International organizations for collaborations and partnerships in India's urban transforming journey. NIUA is committed towards aligning its efforts towards achieving Sustainable Development Goals (SDGs) through all its initiatives and programs.

About NIUA's Water and Environment Vertical

The Water and Environment vertical at NIUA focuses on creating frameworks, mechanisms, and pathways that enable Indian cities to manage their water and environmental sectors sustainably. Aligned with India's Ministry of Housing and Urban Affairs, our efforts are geared towards driving tangible, on-ground change. We collaborate with the Ministry to implement various national Urban Missions and initiatives that impact urban water and environmental management. Additionally, we partner with a wide array of national and international resource organizations with similar goals and mandates.

Our work in urban water and environmental management typically includes:

- Developing national-level strategic frameworks, guidance documents, and advisories to facilitate actionable outcomes across all cities.
- Creating digital tools and instruments to help cities advance their capabilities.
- Conducting action-oriented research on emerging, underexplored topics.
- Supporting the piloting of innovative concepts and technologies through demonstration projects.
- Designing specialized capacity-building modules and certification programs.

Strengthening the River Cities Alliance (Code: RCA 2.0): The National Mission for Clean Ganga (NMCG) and NIUA established the River Cities Alliance (RCA) with a vision to promote long-term conservation and rejuvenation of urban rivers. RCA provides a platform for river cities in India to gain, share, and exchange knowledge on implementing different aspects of managing urban rivers. It was launched on 25 November 2021 by the Hon'ble Minister for Jal Shakti. In addition to serving as a knowledge exchange platform, RCA also provides NMCG and NIUA a unique cohort of cities to mentor and handhold so that they can serve as model cities for urban river management. NIUA serves as the Secretariat for RCA and organises five categories of activities for the RCA members—Capacity building of member cities; Networking events for exchange of knowledge among member cities; Demand-driven technical support for member cities; Expanding the knowledge base on different aspects of urban river management; and documenting and disseminating good practices of member cities within the network and beyond.

Title: Programme Associates (up to 4 positions)

Project Code: RCA 2.0

Reports to: Track Lead RCA 2.0

Core Responsibilities:

1. Support the development of a knowledge repository on RCA cities and related matters
2. Support the development of knowledge products and advisories related to urban river management
3. Assist in coordinating with RCA member city officials and other stakeholders for strengthening the river-related mechanisms in the cities
4. Maintain a database of relevant knowledge and information of RCA member cities.
5. Support in preparing content for capacity building and training programmes organized for different stakeholders.
6. Provide support to the team for conducting key events (e.g. workshops, conferences, review meetings etc.)
7. Travel to the project cities for on-ground monitoring and reporting.
8. Carry out any other additional tasks assigned by the Track Lead.

Education Qualifications & Experience

1. Bachelors/Masters in Environmental Planning/Management, Environmental Engineering, Water Resources Management, Urban Planning/Management, or related disciplines from a reputed university/institute.
2. 3-6 years of relevant professional experience in urban master planning/environmental planning/environmental engineering/infrastructure planning/bio-diversity and ecology conservation etc.
3. Demonstrable knowledge about urban water and environment management.
4. Experience working with State/City government organizations is highly desirable.
5. Excellent writing and communication skills in English.
6. Strong inter personnel and co-ordination skills, working independently, and flexibly.
7. Willingness to travel to the project locations across India as required.
